

CAIRNGORMS NATIONAL PARK AUTHORITY

FOR INFORMATION

Title: STRATEGIC RISK REGISTER

Prepared by: DAVID CAMERON, HEAD OF CORPORATE SERVICES

Purpose

To update the Committee on the Management Team's review of the Strategic Risk Register.

Recommendations

The Committee is asked to:

- a) Note the updated Strategic Risk Register presented at Annex 1 to this paper.

Executive Summary

The Management Team regularly reviews the Authority's Strategic Risk Register. The updated Strategic Risk Register is presented in Annex 1 to this paper for information.

One new risk has now been added to the register since it was last considered by the Committee at its meeting in August 2006.

STRATEGIC RISK REGISTER – FOR INFORMATION

Background

1. At its meeting in March 2006, the Committee noted the establishment of the Authority's Strategic Risk Register and that the register would be considered regularly as part of the Management Team's quarterly operational plan review process.
2. This regular review process is ongoing and the updated Strategic Risk Register is presented in Annex 1 to this paper for information.

Risk Register Update

3. The Management Team have now updated the risk register to take account of the current status of delivery against operational and corporate plan objectives. Text highlighted in italics in the Annex to this paper shows the additions made in July 2006.
4. In particular, one new risk has been added to the register. This reflects the need to be aware of the impact of the roll-out of the Park Brand across a range of the Authority's activities, and to ensure that this process is integrated at a strategic level.
5. A number of actions in managing existing risks have also been updated, as indicated in the Annex.

Future Action

6. The Risk Register will continue to be reviewed by the Management Team and updates brought to the Audit Committee.
