

Email response to David Mudie, Highland Council, 23 October 2015.

---

Dear David

**Erection of 13 wind turbines, including site tracks, crane hardstanding, 80m permanent anemometer mast, substation compound, temporary construction compound & provision for 3 onsite borrow pits at Tom Nan Clach Wind Farm, Glenferness**

I refer to the above application which you consulted the Cairngorms National Park Authority (CNPA) upon. I can now confirm that this proposal has been considered by members of the CNPA Planning Committee and they have no objections to the proposed development. The Committee did however wish to highlight their concern regarding the encircling of the Cairngorms National Park by wind farm development.

Details of the officer report are available on our website on the following link – item 5 refers

<http://cairngorms.co.uk/meeting/planning100-2015-10-16>

I hope this information is of assistance and would thank you for your cooperation in agreeing extension of timescales with this case

I am copying this e mail to the agent and SNH too.

Yours sincerely

Katherine Donnachie  
Planning Officer  
Cairngorms National Park Authority
