CNPA Local Development Plan 2020

Dear Sir

I note that in your Local Development Plan 2020 You have allocated site THC046/THC054 for economic development. This site was temporarily used by the developer for the dualling of the A9 and the residents were told that the land would be returned to its original state – grassland. Is there not a contractual obligation here to return the land to what it was?

In your Plan 2020 this same site is allocated for economic development. My concern for this is the proximity to Alvie Primary School. At opening and closing times of the school the parents and children are walking on the opposite narrow footpath, opposite to the site. A20 MPH limit is in operation at that time for their protection.

Therefore any increase in moving traffic would be a risk to the younger members of our community.

Yours faithfully

Mrs MJE Mcalman
