Q135 Explain your answers here:

The A9 compound, created for dualling the A9 was to be returned to its original condition. at present this has not happened and services and tarmac have just been covered with soil. The impact of the compound has been felt over the past 3 years with increased traffic on the B5192, which has affected the pavement from the school to the village, making the 'safe route to school' unsafe for the children. The school is almost at capacity which means there are a lot of children walking and heavy lorries etc have endangered lives. How would future development of that site be accessed? if from the B 5192, this would cause issues for the 'safe route to school' and would also impact on the exits form Suie Crescent, Macbean Road and Suie Brae. There would also be an impact on local residents, particularly if development were to mean lights on overnight or heavy goods vehicles overnight.
