**Subject:** Fwd: LOCAL DEVELOPMENT PLAN 2020 FOR INSH

Dear Mr Harris

I have reviewed the plan which was discussed at the recent Kinncraig Community Council meeting and note the present boundaries of the village of Insh.

I would like to put forth the following comments:-

I am happy that site THC001 should be accepted for 1 new house.

All services are on site so there would be little disruption to the roadside

The site would be screened by trees that are there already and which grow prolifically anyway

I think the village boundary should be extended to include Waneyedge which would then contain all houses in the village.

Many of the people living in this village work in the area and although there are a number of holiday homes it is very much a 'living' village.

I trust my comments will be considered for this important decision.

Yours

Kate Toynbee

**Subject:** Insh Settlement Plan

Dear Mr Harris

Further to discussion re the Insh Settlement Plan I note that there is a site beside the Schoolhouse. At present this rests outwith the village boundary but I do feel that its inclusion would tidy that corner of the village,

I do hope you will consider this thought particularly as I know the plot will not be for a holiday home.

Regards

Kate Toynee
