Comments for Planning Application 2016/0442/DET

Application Summary

Application Number: 2016/0442/DET

Address: Glenshee Ski Centre Braemar Aberdeenshire AB35 5XU

Proposal: Installation of four person chairlift

Case Officer: David Allan

Customer Details

Name: Mr dave boffey

Address: 65 emmock woods drive dundee

Comment Details

Commenter Type: Member of Public

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I fully support this application for the improvement in lift infrastructure at Glenshee.

The old Cairnwell T bar has been operating beyond its original intended lifespan, apart from being unsuitable for purpose with regards to mixed skier/snowboard or lighter people the new 4 person chair will bring a more sustainable and user friendly uplift benefiting visitors to Glenshee and the economy of the local communities of Blairgowrie, Braemar and surround.

in terms of the environment, the new machinery will be more efficient, less polluting and by not being a surface uplift the vegetation below the old uptrack will improve greatly

this is a much needed upgrade to the visitor experience and will help support local employment through the season.

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I have been a keen snowboarder for over 20 years and would love if this replaced the old rickety Tbar lift that is not ideal for snowboard uplift as its designed for skiers.

Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: This is an important development that will support the continued success of Glenshee. As a skiing family with two children, the Cairnwell T-bar has often been a limiting factor to the level to which we can enjoy a trip to Glenshee. The length and steepness of the T-bar make it challenging for children under the age of 10 to use, meaning that we cannot easily access some of the better runs at the resort. A chairlift would help bring Glenshee in line with modern ski resorts and continue to attract the family skiers who will spend significantly both at the resort (passes, equipment hire) and in the local area.

Apologies Dee, I didn't realise that it was a required field. Comment below:

"In my opinion this development will really improve the facilities at Glenshee, bringing them further up to date and attracting more visitors to the resort who are otherwise put off by ski tows. It will also help to lessen queues at a real bottleneck in the resort, helping people to get more value from their lift pass purchase."

Kind regards,

Tom

I refer to your submission online in connection to application number 2016/0442/DET, as below.

I am afraid your actual comments of support section is blank. Could I ask you to submit your online comments once again or alternatively reply to this email, giving me your supporting comments on this application?

Kind regards,

Dee.
