Comment Details

Commenter Type: Member of Public

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I object to the nature of this application on the grounds that it is yet another holiday accommodation that the village does not need it offers the village aviemore nothing it doesn't have already , also would access for the works not disturb the local village green ? This being a lovely site when the weather is good would be a shame to have building works disturb it .

I know my comments probably won't stop this application but thought that this was worth saying .
