Title: SCOTTISH GOVERNMENT FEEDBACK ON CNPA
PLANNING PERFORMANCE FRAMEWORK REPORT
2022/2023

Prepared by: Gavin Miles, Head of Strategic Planning

Purpose

1. To inform the Committee of the Scottish Government's feedback on the CNPA's Planning Performance Framework Report for 2022/23.

Background

2. Each year, the CNPA and all other planning authorities in Scotland produce Planning Performance Framework (PPF) reports on the performance of their planning service against criteria set by the Scottish Government. The CNPA PPF report for 2022/23 is available to view here: [CNPA Planning Performance Framework](#). For comparison, other planning authority reports can also be viewed from this page: [Planning Performance Framework – HOPS \(hopscotland.org.uk\)](#). Each year, the Scottish Government provides feedback on each planning authority's PPF report using a red-amber-green coding.

Scottish Government Feedback for 2022/23

3. The CNPA received the Scottish Government's feedback in late October 2023. The feedback report is included as Appendix 1. The CNPA has consistently had positive feedback reports over recent years and like last year, received green markers throughout the assessment. The history of our performance feedback is shown on the table on page 4 of Appendix 1.

Conclusion

4. It is good to have positive independent feedback and the report reflects the consistent work of the entire planning team and the Planning Committee. The planning team will continue to try to maintain our performance and look to

identify improvements in the ways we deliver it. The CNPA's next PPF report will be completed for the 2023/24 year and submitted to Scottish Government in the summer of 2024.
