Dear Sir / Madam

In my email of the 19th July, I should have informed you that I am secretary for Laggan Community Housing Ltd Reg No RS2186 Laggan Community Housing owns houses 6 of the 10 houses at Strathmashie 2 of our houses are numbers 9 & 10. They are very perturbed at the thought of yet more lorries passing up what we believe was/is a forestry road.

There are also a number of people including our tenants that are very concerned that the Distillery is proposing to gate this road.

As this road has been for many years considered to be an official route up into the Glen, for workers, cyclist from Wolftrax use it regularly. SSE used it when building the Melgarve sub-station and will no doubt expect to use it again when maintenance work is required. Forest Scotland will be using it in the near future to remove trees at present being felled. So allowing the Distillery to gate this road would cause much angst in the community against the Distillery. Not I am sure what the Distillery want if their Community Consultations are to be believed.

Laggan Community Housing Ltd. would still like a copy of the plans as the road / forest track do concern the tenants of not just the tenants of Not 9 & 10 but all of the residents who need that track for access, and as I stated below have still not managed to download the plans from your website.

Yours sincerely

I would like to obtain an on-line copy of the planning application by Speyside Distillers Company Ltd for their proposed development at Laggan
Post code PH20 1AJ (I am assuming as site lies between Blaragie and Garva)

I find I am going round in circles trying to open up your Planning and Development website.

Yours apologetically
