

AGENDA ITEM 5

APPENDIX I

LOCAL DEVELOPMENT PLAN ACTION PROGRAMME

Cairngorms National Park Local Development Plan Action Programme June 2015

SECTION I: PURPOSE AND FORMAT

Purpose

This Action Programme has been prepared to support delivery of the Cairngorms National Park Local Development Plan 2015 (LDP). It identifies the actions which will help implement the vision, strategy and proposals of the LDP. It is the CNPA's main delivery tool for the LDP and will be used to help monitor progress.

This Action Programme sets out how the CNPA, constituent local authorities and other partners intend to implement the LDP. It sets out, where possible:

- A list of actions required to deliver each of the Plan's key policies and proposals;
- The organisation who is to carry out the action; and
- The broad timescale for carrying out each action.

The Town and Country Planning (Development Planning) (Scotland) Regulations 2008 does not specify the particular types of action that should be included, though these may be expected to include the delivery of key infrastructure and the preparation of supplementary guidance.

The CNPA want this Action Programme to be a 'live' document that changes and adapts over time. The CNPA will review and publish a revision of it each year in order to reflect changes on the ground, demonstrate progress or problems in delivery, incorporate new actions and provide up to date information on the status and progress of sites over time for communities and developers.

The CNPA will also use the Action Programme to build a clearer evidence base for the each of the allocated sites in the LDP, identifying constraints, or costs of developing sites and ways of resolving them. That information will be updated in each review of the Action Programme and available for developers and communities.

Format

The Action Programme has six main sections:

Section	Page
1. The Purpose and Format	2
2. Delivery Priorities for the year ahead	5
3. National Projects	6
4. Infrastructure Delivery and Enabling Projects	7
5. Delivery of LDP Policy Framework	10
6. Monitoring	14
7. Development Land Supply Information	15

The role of partners

The Action Programme is prepared by the CNPA as the authority that prepares the Local Development Plan for the National Park. However, the CNPA is only one of many public bodies, private developers, landowners and communities who are responsible for delivering actions within it.

For example, most local authorities combine the roles of planning authority with housing authority, roads authority, education authority and delivery of services, each of which may help deliver the LDP for an area. In the Cairngorms National Park, the local authorities continue to do all those roles, with the CNPA sharing

parts of the planning authority role. This means that our Action Programme relies heavily on the work of the local authorities and other public bodies as well as the owners of land, private developers and communities. There are too many to identify in detail, but some of the key roles are summarised below:

Summary of partner roles	
Partner	Responsible for:
Cairngorms National Park Authority	<ul style="list-style-type: none"> • Coordination of delivery, monitoring and review of LDP and Action Programme. • Significant planning consents, monitoring and enforcement, delivery of efficient planning service for customers • Support and small-scale funding for corporate priorities

Developers, (including community groups or public bodies when acting as a developer)	<ul style="list-style-type: none"> • Undertake work to make effective planning applications. • Comply with planning consents and conditions. • Secure other required consents. • Keep planning authority informed of progress or problems with sites. • Secure funding, manage development process through to completion and disposal or sale of properties.
Communities and other groups	<ul style="list-style-type: none"> • Engage in LDP preparation and consultations. • Develop and review Community Action Plans. • Establish community development companies to coordinate and develop projects.

Links to other Plans and Strategies

The Local Development Plan and Action Programme help to deliver the plans and strategies of many organisations and for many issues across the National Park. In particular, the Cairngorms National Park Partnership Plan sets the context for the LDP and is the plan that coordinates the work of many partners in the National Park. The implementation of the LDP and Action Programme contribute to many of the Partnership Plan's outcomes and programmes. Other plans or strategies prepared for the Cairngorms National Park that will also be supported the implementation of the LDP include:

- National Park Economic Strategy
- The National Park Capital Investment Plan
- Strategy and Action Plan for Sustainable Tourism
- Cairngorms Nature Strategy and Action Plan
- Core Paths Plan

Other plans and strategies that are closely linked include:

- The local authorities Housing Strategies, and Strategic Housing Investment Plans
- Regional Transport Strategies
- Area Waste Plans
- Local Authority capital investment plans
- Community Action Plans
- Plans of Community Planning Partnerships
- Catchment Management Plans

Review of the Action Programme

The CNPA will review and republish the Action Programme annually. We expect the Action Programme to evolve over the life of the LDP as it is implemented, as sites move forward, and partners focus work around the Action Programme. The second Action Programme will include greater detail on the progress and constraints on many sites.
