Subject: Planning application

Dear Sue

I am writing to you as secretary of Kingussie and Vicinity Community Council.

I notice from this week's Strathy that the Council is to consider the latest application from Davall to build houses in Kingussie; I would like to encourage the Council to support this application.

Kingussie is the only town in the Strath which does not have an ongoing programme of new home building. The capital of Badenoch is in serious danger of being left behind, and becoming the ghost town which many fear. At present out of the total roll of around 430 Kingussie High School pupils, fewer than 40 live in Kingussie; we need young families in the town to make our schools and our shops viable - and young families need homes.

Those of us who are fortunate enough to have managed to find a home in Kingussie, as we did with some difficulty forty-two years ago, want Kingussie to have vibrant future. That will not happen if the focus is on the past and keeping Kingussie unchanged.

I would respectfully request that you share this email with other members of the Council as part of your deliberations.

Kind regards

Jenny Dunn
