Mr. S. K. PARKING
3, STRATHSPEY LODGES
SOUTH STREET

Yours Ref: Application Number.

GRANTOWN - ON - SPEY
PH 26 3JA.

Ref: Application Number 11/01217/MSC.

Case officer: Andrew McCracken

With reference to above planning I object strongly against any further building behind our property as did I object against ongoing building. On speaking to my neighbours they not object because they say our views never taken into account.

The main reasons for objections is certain devaluation of our property so please tell me who will be responsible for compensation when we decide to sell?

Mr. Lawson obtained my signature under false pretences as he promised a 6 foot wall would be built same height as my existing fence this has not happened, also 2 houses would be buildings close to our premises and out of view and set back, this is not the case either, in fact flats have been built about 3 or 4 feet away and overlook our property so close that when i take a bath i can see through windows of flats which means occupants of flats will see anyone in my house taking a bath!!! what is going to be done about this? also anyone can see into our property from the car park so we have no privacy whatsoever!!!

I thought by law adjacent land owned by others has to be certain distance away so not overlooking other properties as when I applied for planning permission a few years ago I was refused because overlooking someone elses land and the distance was more than 3 times the distance of buildings

being built behind us now. It seems to me its who you know and not what you know when it comes to planning permission.

Therefore reasons for objections are invasion of space, privacy and devaluation of my and neighbours properties.

cc. Mr. D. Alexander

MP Inverness & Nairn.
