Subject:Bachan Development

2018/0402/DET This is a very complex issue and we do not feel we have the expertise to respond competently. We are inclined to support the comments made by Dr Bulloch and we are also concerned about the progress of this development, the frequent discrepancies and alteration to the plans. It is appreciated that these comments cannot be incorporated in the planning process as they are well beyond the closing date for responses.

Yours,

Grantown-on-Spey and Vicinity Community Council
