Dear Sirs

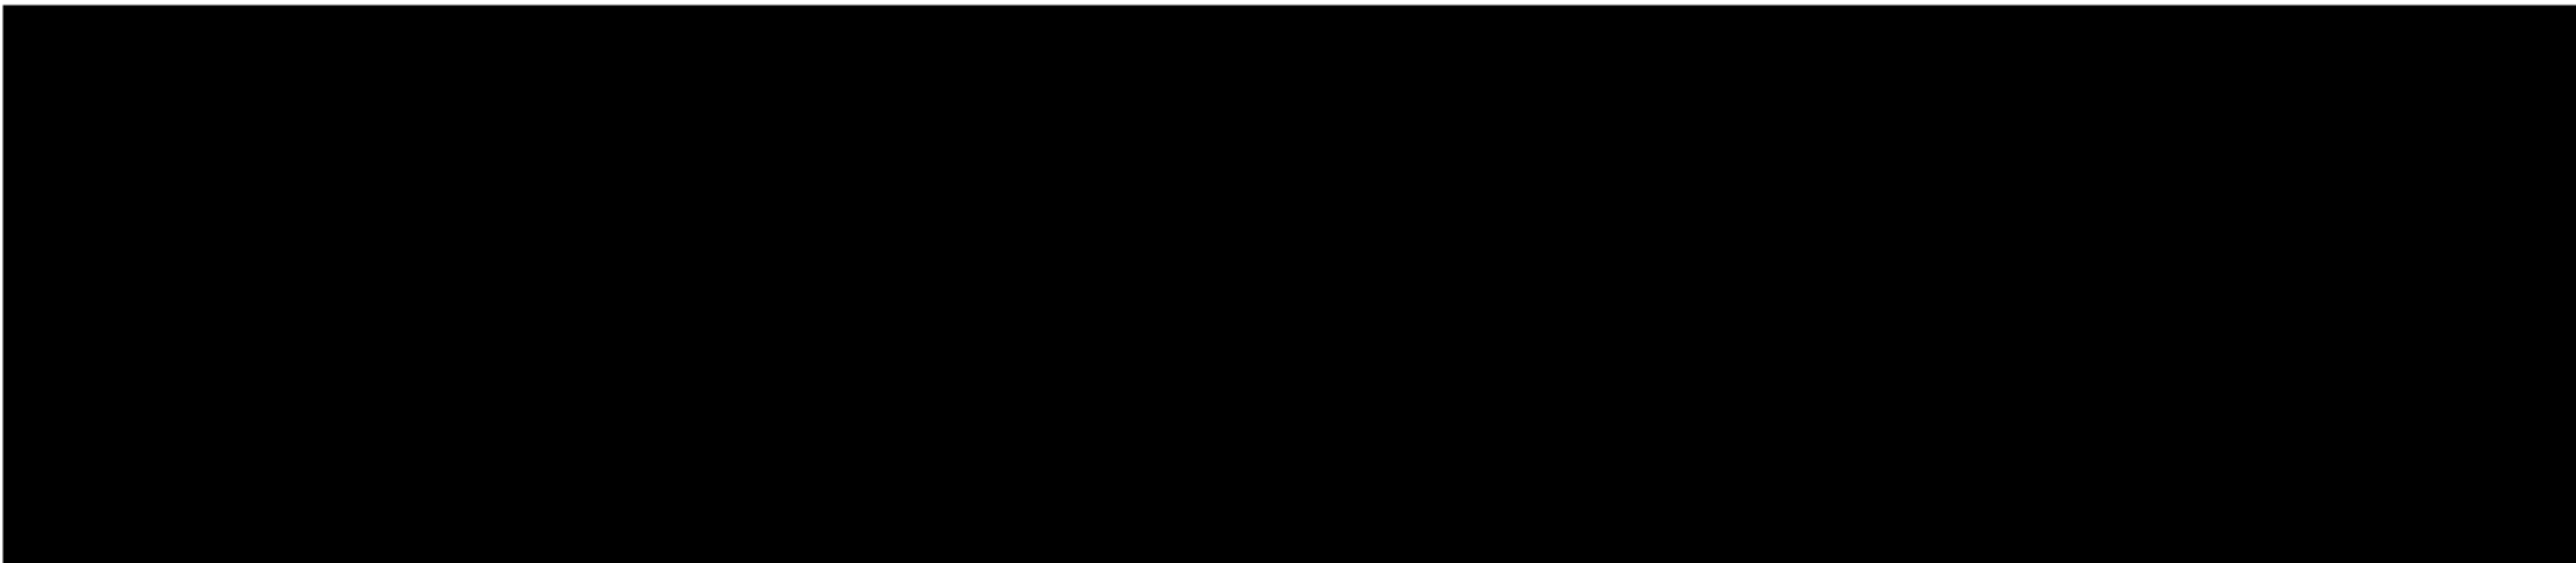

On line application000035173-001

In support of the above application to vary Condition 1 under section 42, we would like to make the following statement.

Current economic and market conditions have resulted in it not yet being possible to achieve a satisfactory conclusion in respect of application 10/413/CP. Discussions are taking place with prospective business partners and to enable these to continue with purpose it is necessary to request an extension to the application 10/413/CP. As a result, we believe it is reasonable to request an extended of 3 years for submission of Reserved Matters.

In respect of the above, we would ask your Committee to consider this application favourably, but you do not hesitate in contacting me should you have any queries.

Yours sincerely

Alistair Grant
Managing Director
