Comment Details

Commenter Type: Neighbour

Stance: Customer made comments neither objecting to or supporting the Planning Application

Comment Reasons:

Comment: The refrigeration unit has now been moved which should eliminate most of the noise which we objected to in the last application. However, we would like some clarification on the unit that will be placed next to our property as there are no details with the revised plans. After a conversation with a planning officer and a representative from the Co-op it would seem that it is only a small silent unit but we would like to be re-assured that this will be the case as there was some uncertainty as to the exact purpose of this unit.

We are unable to support or object to this proposal until we have this information.
