The Keeper of the Registers of Scotland has been asked by the Scottish ministers to complete the land register within 10 years. At the moment, around 58 per cent of all Scottish properties are on the Land Register - this is about 26 per cent of Scotland's land mass.

Registers of Scotland are working with Scottish Land & Estates and the Cairngorms National Park Authority to explore ways that this might be best achieved.

Additional information can be found on the Registers of Scotland website as background <https://www.ros.gov.uk/about-us/land-register-completion>
