

## Annex I – List of candidate core paths for future Plan reviews

This table details paths that were proposed in the Interim and Draft Core Paths Plan but have subsequently been removed from the Core Paths Network.

A number of other longer term aspirations were highlighted during the development of this plan. In Braemar, there was much support for a new bridge over the River Dee and also an off-road link between the Queen's Drive and the Old Brig O'Dee at the Keiloch. It is anticipated, however, that this project cannot be completed within two years and as such they were not proposed as core paths. However, the CNPA recognises the importance of these paths and will continue to work with the community and land manager on this project. If the projects can be delivered then they will be considered for core path status alongside all other paths when the Core Paths Plan is reviewed.

In Lower Badenoch and Strathspey there was support for a new off-road link between Grantown-on-Spey and Dulnain Bridge. Likewise, it was anticipated that this project cannot be completed within two years and is therefore not proposed as a core path at this time.
