

Badenoch & Strathspey Conservation Group
STATEMENT OF EVIDENCE
Hearing Session

Provision of the Local Plan

Aviemore Environment AV/Env

Summary of objection(s)

Areas classed as Environment should be protected from any built housing, industrial or employment development and this should be unequivocally stated in the LP. 'Adverse' alone is too open-ended. It should be clear to developers that Environment areas are not available for built development.

Recommendation.

Re-word final sentence, along lines of : '..are identified and will be protected from any adverse development, including all built development'.
