

Looking for a fuel that
makes good environmental
and economic sense?

The answer might be closer
than you think.

To find out more log on to www.lowcarboncairngorms.org
or come to one of our wood fuel events for householders,
farmers, community groups and industry professionals

Wood fuel makes shedloads of sense

Using wood from sustainably managed forests to warm homes and businesses makes sense for the environment - and your pocket too. Share in a wealth of experience and discover whether woodfuel could work for you.

Whether you're a farmer, a householder or an industry professional, we have just the event for you
