## Foreword

The National Geographic Magazine called the Cairngorms National Park one of the 50 greatest places on earth. The Park is blessed with arctic alpine mountains, wide straths, the magnificent Caledonian pine forest and beautiful rivers and lochs. Space, tranquility, nature, open skies and seasonal change are found here and can help people cope with their busy, stressful lives. The National Park is a shining jewel in Scotland's crown and is a special place to love and a fantastic place to visit.

Accessibility for all is the main reason why this superb landscape is much loved and stirs the emotions of so many people. The Core Paths Plan identifies the most important and well used paths throughout the Park and forms the backbone of our outdoor access network.

Through Active Cairngorms, the physical activity and outdoor access strategy for the National Park, our goal is to get residents and visitors using the Park for physical activity one a day. Our Core Paths Plan helps to create active places to make this goal a reality. We aim to make it easier and safer for people to move around the Park whatever their age, ability or background; to be more physically active, to learn about, care for and appreciate wildlife and culture in the National Park.

Core paths can make a difference to everyone who lives in the Cairngorms National Park or enjoys visiting the area. We want people to walk or cycle to school and work safely and for visitors to have an outdoor experience in the Cairngorms that is second to none. I believe our work in developing core paths can influence changes in behaviour that can last a lifetime and help more people live longer and with healthier lifestyles.

Enjoy the outdoors!

*Duncan Bryden, Convener  
Cairngorms National Park Authority board*

## Facal-toisich

Thuir an iris National Geographic gur e Pàirc Nàiseanta a' Mhonaidh Ruaidh aon de 50 àite a b' fheàrr air an t-saoghal. Tha beanntan arctic alpine sa Phàirc, srathan farsaing, a' choille ghiuthais Chailleannach, aibhnichean bòidheach agus lochan. Tha farsaingeachd, sìth-thàimh, nàdar, adhar fosgailte agus atharrachadh nan ràithean rim faotainn ann an seo agus is urrainn dhan seo daoine a chuideachadh leis a' bheatha thrang làn uallaich a tha aca. 'S e neamhnaid dheàlach ann an crùn na h-Alba a tha sa Phàirc Nàiseanta agus is e àite sònraichte a tha ann airson a bhith a' fuireach ann agus àite mìorbhaileach tadhal air.

Is e ruigsinneachd do na h-uile am prìomh adhbhar a tha daoine cho dèidheil air an t-sealladh tire iongantach seo a bhios a' brosnachadh aignidhean mhòran. Tha am Plana Prìomh Shlighean a' sònrachadh nan slighean as cudromaich agus as trice a bhithear a' cleachdadh air feadh na Pàirce agus a tha mar chnàimh-droma ar lionra air a' bhlàr a-muigh.

Tro Monadh Ruadh Gnìomhach, an ro-innleachd cur-seachadan corporra agus cothrom ruigsinn air a' bhlàr a-muigh airson na Pàirc Nàiseanta, is e ar n-amas luchd-còmhnaidh agus luchd-tadhail a thàladh gu bhith a' cleachdadh na Pàirc airson cur-seachad corporra aon uair san latha. Tha ar Plana Prìomh Shlighean a' cuideachadh gu bhith a' cruthachadh àitean intinneach gus an amas seo a thoirt gu buil. Tha sinn ag amas a bhith ga dhèanamh nas fhasa agus nas sàbhailte do dhaoine a bhith a' gluasad mun cuairt na Pàirc ge bith dè an aois a tha iad no cò às a tha iad; a bhith nas gnìomhaich, a bhith ag ionnsachadh mu dheidhinn, agus cùram agus ùidh a ghabhail san fhiadh-bheatha agus sa chultar a tha sa Phàirc Nàiseanta.

Is urrainn do na Prìomh Shlighean eadar-dhealachadh a dhèanamh do na h-uile a tha a' fuireach ann am Pàirc Nàiseanta a' Mhonaidh Ruaidh no ris am bi e a' còrdadh a bhith a' tadhal air an sgìre. Tha sinn airson 's gum bi daoine a' coiseachd no a' dol air baidhsagal chun na sgoile no chun obair gu sàbhailte agus do luchd-tadhail fèin fhiosrachadh den bhlàr a-muigh a bhith aca sa Mhonadh Ruadh nas fheàrr na gheibheadh iad an àite sam bith eile. Tha mi dhan bheachd gun urrainn an obair a tha sinn a' dèanamh ann a bhith a' leasachadh prìomh shlighean, buaidh a thoirt air dòigh giùlain dhaoine a mhaireas fad am beatha agus a chuidicheas daoine a bhith beò nas fhaide agus le stoidhlean beatha nas fhallainn.

An dòchas gun còrd e ribh a bhith air a' bhlàr a-muigh!

*Duncan Bryden, Neach-gairm  
Ùghdarras Pàirc Nàiseanta a' Mhonaidh Ruaidh*

## Introduction

The international reputation of the Cairngorms National Park makes it a venue for a wide range of outdoor activities, access and recreation. The Land Reform (Scotland) Act 2003 provides a right of responsible access to most land and water within the National Park.

The Cairngorms National Park Authority (CNPA) has a duty under the Act to prepare a Core Paths Plan. Section 17 (1) of the Land Reform (Scotland) Act 2003 states that the core paths network should be: '... sufficient for the purpose of giving the public reasonable access throughout the area'.

The Core Paths Plan helps people to enjoy and understand the special qualities of the Cairngorms National Park by identifying outdoor access opportunities. The path network will satisfy the needs of visitors and local people to get around, and link to the wider path network and beyond. The network is made up of a mixture of existing and new paths, which together provide a cohesive system.

## Vision for the Core Paths Plan

The Core Paths Plan helps to deliver the vision for the National Park: 'An Outstanding National Park, enjoyed and valued by everyone where nature and people thrive together'.

In particular, the Core Paths Plan will help people to enjoy and understand the special qualities of the Cairngorms National Park by identifying a network of paths which offer a wide range of high quality outdoor access opportunities.

## Objectives of the Core Paths Plan

The core paths network will:

- a) help to conserve the Park's natural and cultural heritage and encourage people to enjoy it in a responsible way;
- b) help those living and working on the land manage access;
- c) help to deliver the priorities for each area identified in Active Cairngorms;
- d) provide for a wide range of activities;
- e) provide for a wide range of abilities;
- f) include a wide range of popular routes; and

g) include paths within, around and between communities and to public transport connections and places of local importance.

## Delivering the Core Paths Plan

Everybody – landowner, public agency, community group or developer – can contribute towards the development of the Core Paths Plan. Active Cairngorms sets three themes that the Core Paths Plan will help deliver – Active Places, Active Management and Active Promotion.

The Cairngorms National Park Authority will use the Core Paths Plan to priorities resources and path development projects. It will use the Core Paths Plan to support visitor management plans on sensitive sites and it will ensure core paths are waymarked and signposted so that they can be promoted by communities and partners.

Landowners, public agencies and communities can use the Core Paths Plan to manage where people go on their land, take account of recreational needs in development planning and ensure the access needs of communities are met and incorporated into planning and development.

## Links to other plans and priorities

The Core Paths Plan helps to deliver other key strategies and priorities in the National Park, for example the Cairngorms Nature Action Plan and the Capercaillie Framework through engaging the public in the Park's special qualities and helping landowners manage access around sensitive sites.

The Core Paths Plan will also inform large scale infrastructure projects protecting and enhancing access opportunities, for example along the A9 corridor or in and around proposed new development.

## Monitoring progress

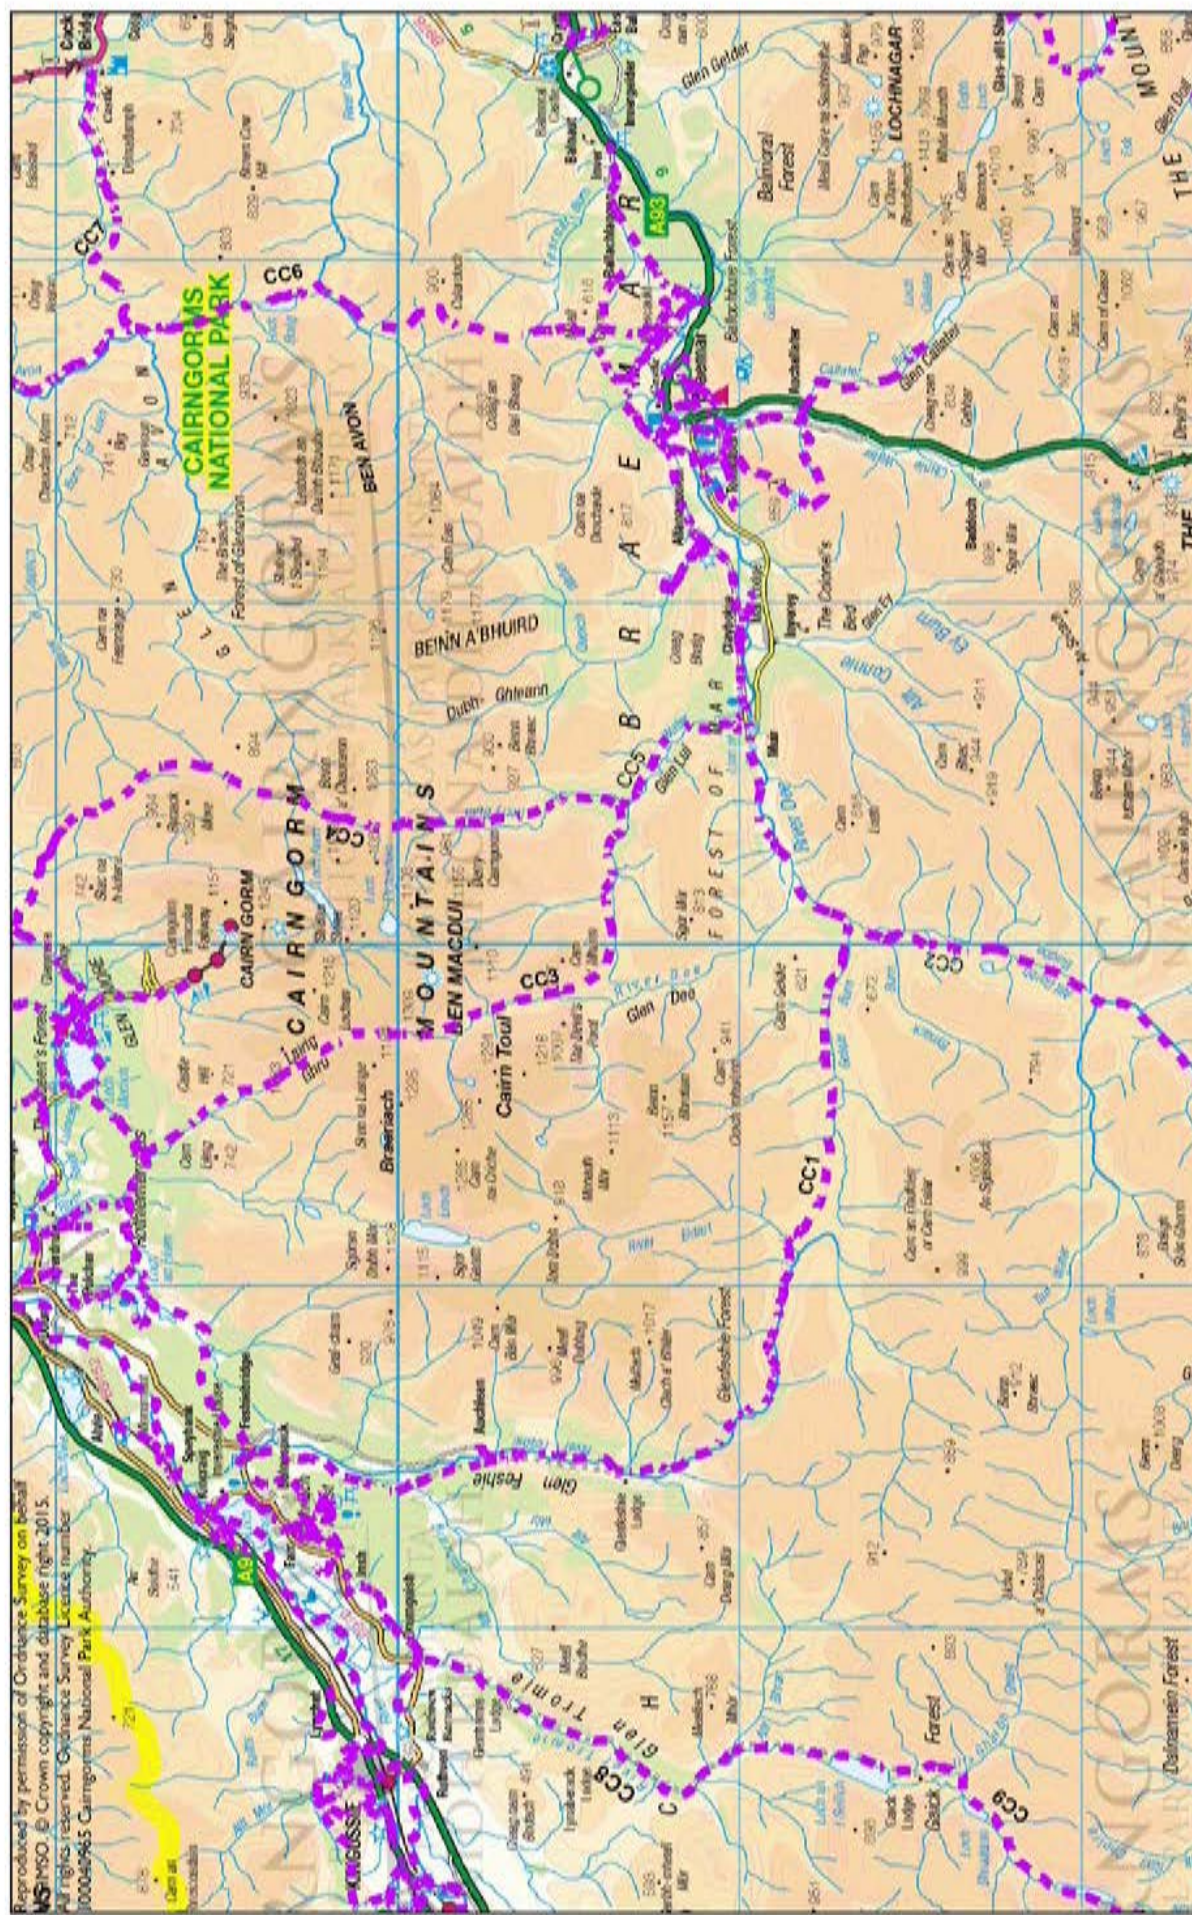

The success of any plan is based on being able to demonstrate that something has been achieved. The CNPA will continue to monitor the delivery of the Core Paths Plan on a biennial basis assessing if the network is 'fit for purpose'. A core path that is 'fit for purpose' is barrier free, signposted at both ends and the path surface should be suitable for the likely range of users.

## Map I – Central Cairngorms

These paths pass through an area of challenging terrain and conditions can be such that people need to be self sufficient and well equipped. There is a presumption against designating a large network of paths in the upland areas and areas of woodland. Those paths designated are the linking routes which are already well used and well known. They all have green and white Right of Way signage at either end and appear in a variety of leaflets and books about the

Cairngorms. In the Active Cairngorms strategy there is a presumption against waymarking in wild, remote and mountainous terrain and there will be no further signposting or waymarking of these paths as a result of core path designation. Visitor pressures, such as erosion from certain activities will be managed in a sensitive way to protect the fragile environment, manage landscape impact and will follow best practice in upland path repairs.

GRI7	The Thieves Road
LBS29	Old Logging Way
LBS127	Glenmore to Nethy Bridge via Ryvoan

Signage and track improvement to the Thieves road (GR17) could have a likely significant effect on the Cairngorms SPA. Before these works commence information must be supplied that will allow the Access Authority to carry out an Appropriate Assessment which will inform the final consent. To be in accordance with this plan, and for consent to be granted, such work must not adversely affect the integrity of the site, either alone or in combination with other plans or projects
