

## Glenlivet and Tomintoul

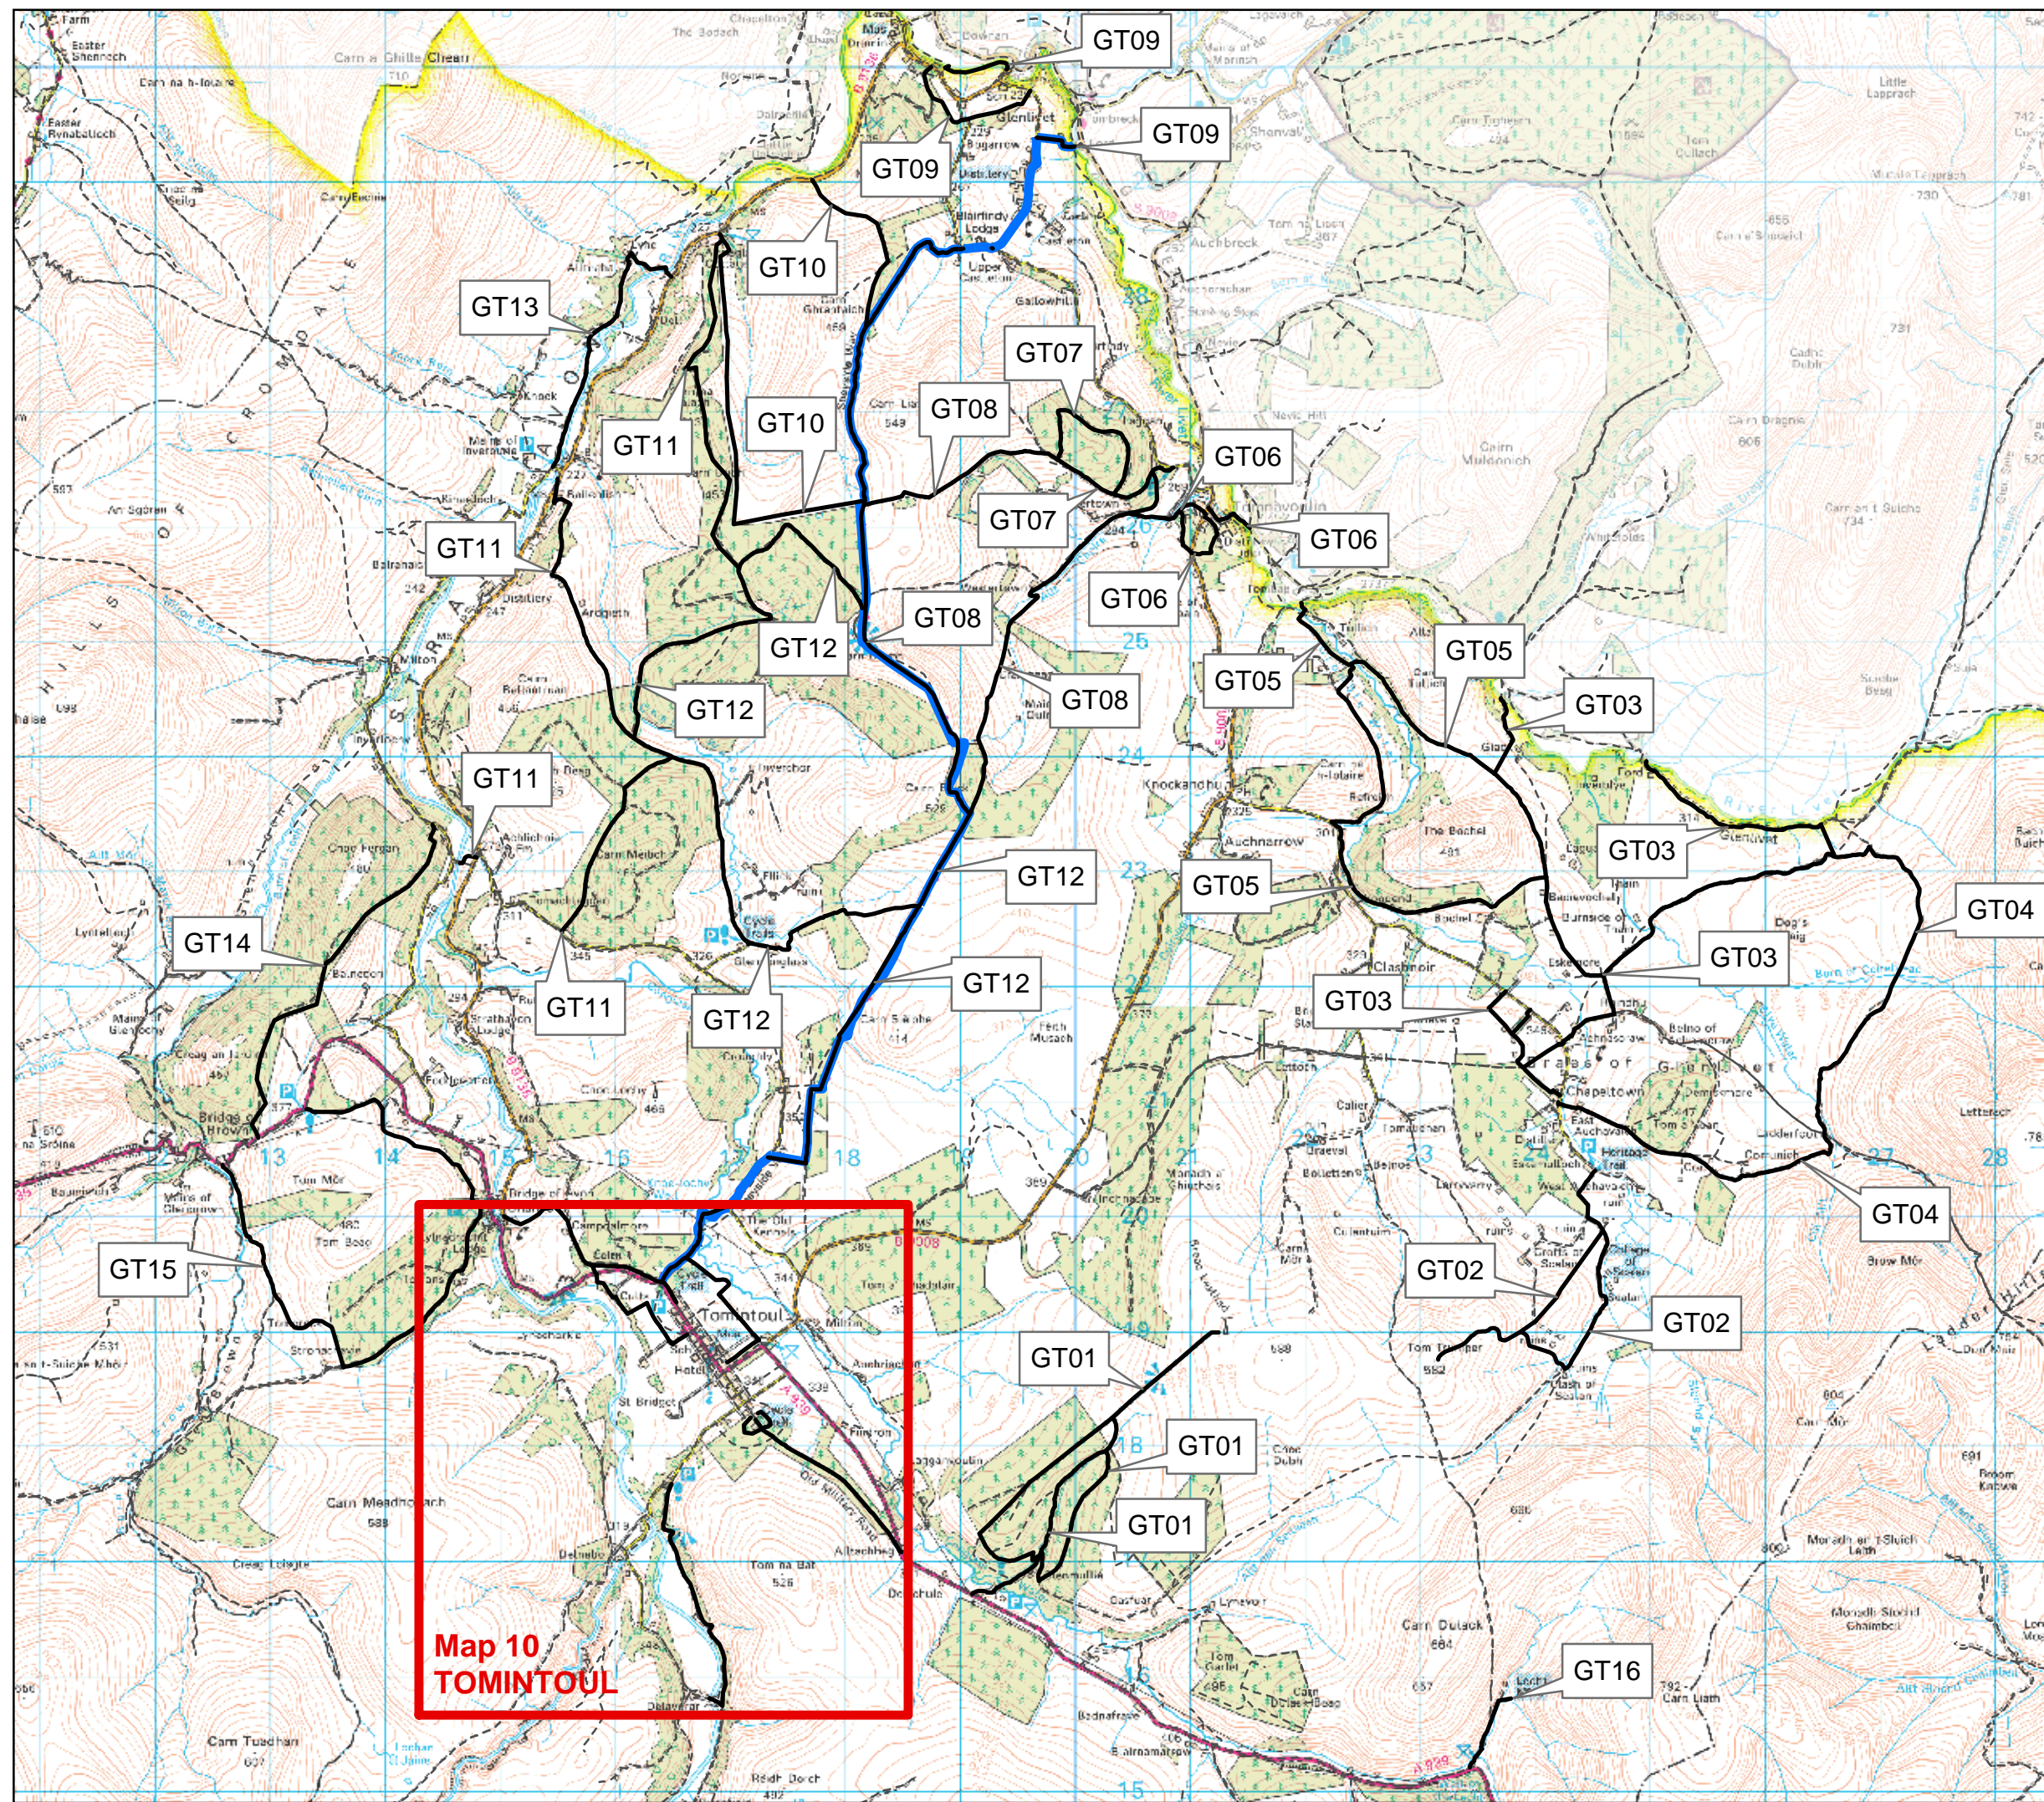

During the public engagement process it was found that the Crown Estate paths and the Speyside Way spur are popular and well used. There is a need to improve and repair the surface of the Speyside Way spur into Tomintoul. Hill walking was the most popular activity in the area followed by low level walking with most people doing activities to keep fit and healthy and equally to enjoy the countryside. There is quite low demand for better opportunities for outdoor access in the area which may reflect the excellent existing provision.

<b>GLENLIVET AND TOMINTOUL – Proposed Core Paths</b>
