

Tomintoul

During the public engagement process it was found that there is a need to improve and repair the surface of the Speyside Way spur into Tomintoul. The pavements near and to the health centre need improving and the pavement to the north of the settlement needs to be extended to link up with the path network.

The most popular path identified was the Tomintoul circular route (identified by over 60% of respondents). The back lanes, the road down to the Delnabo Bridge, the road up to the Bridge of Conglass and the Old Military Road to Glen Mulliach Forest were also very popular (identified by over 50% of respondents).

Low level walking, dog walking and wintersports were all popular in the area with most people doing activities to keep fit and healthy and equally to enjoy the countryside. There was a reasonably high demand for better opportunities for off-road cycling and for low level walking.

TOMINTOUL – Proposed Core Paths	
Path Ref. No.	Path Description
GT14	Glenconglass/Glen Brown (Black Trail)
GT15	Glen Brown - Kynadrochit
GT16	Community Path
GT17	Link Path
GT18	All Abilities Path
GT19	Old Military Road
GT20	Tomintoul Country walk/Queen Victoria Viewpoint
