

EQUALITY OUTCOMES FOR CAIRNGORMS NATIONAL PARK AUTHORITY (2013 – 2017)

Introduction

1. As part of CNPA's public equality duties, it must develop equality outcomes which will further the three parts of the general equality duty, these being:
 - Eliminating discrimination, harassment, victimisation or any other prohibited conduct.
 - Advancing equality of opportunity by having due regard to:
 - Removing or minimising disadvantage
 - Meeting the needs of particular groups that are different from the needs of others
 - Encouraging participation in public life.
 - Fostering good relations – tackling prejudice, promoting understanding.
2. These outcomes must:
 - be published by 30 April 2013;
 - involve people with protected characteristics in preparing outcomes;
 - consider relevant evidence.
3. The nine 'protected characteristics' (referred to as equality groups/strands) covered by the Equality Act 2010 include: age, disability, gender, sexual orientation, race, religion and belief, gender reassignment, pregnancy and maternity, marriage and civil partnership.
4. This paper details CNPA's set of equality outcomes, which have been developed in consultation with Inclusive Cairngorms and CNPA senior managers (see Annex 1). Annex 2 provides the evidence that helped to inform the outcomes along with an Action Plan.
5. Separately but related to this report, the CNPA has produced a mainstreaming report showing how equalities is embedded into our day to day systems, and the good practice and inclusion work we are already involved in. This report is available on our website www.cairngorms.co.uk.

Context

6. Cairngorms National Park Authority

As an employer, the CNPA has a staff of c60 based in its offices in Grantown-on-Spey and Ballater.

7. As a service provider, the CNPA's role is to:
 - Provide leadership and coordination with partners to deliver the National Park Partnership Plan and other activities.
 - Support and add value to activities of partners in delivering National Park Plan.
 - Deliver functions directly:

- planning and development management – as the planning authority for significant applications, and as the Authority responsible for the area’s Local Development Plan, we aim to ensure a well designed sustainable place to live and work;
 - access management – as the Access Authority under the Land Reform Act (2003) we facilitate responsible outdoor access in the area.
8. The role of the CNPA as an ‘enabling organisation’ is about promoting good practice in equality to its partners to deliver the NPP, as much as it about demonstrating it within the Authority.
9. **National Park Partnership Plan 2012-17**
In the National Park Partnership Plan, ‘Parks for All’ is included as a key National Park principle which underpins the whole ethos of the Plan and the management of the Park.
10. The Plan contains three long-term outcomes:
- a sustainable economy supporting thriving businesses and communities;
 - a special place for people and nature with natural and cultural heritage enhanced;
 - people enjoying the Park through outstanding visitor and learning experiences.

11. **CNPA Corporate Plan 2012-15**

The Corporate Plan (2012-15) sets out CNPA’s contribution to delivering the Park Plan outcomes, through 8 programmes of work. The links between Park Plan and related work programmes in the Corporate Plan are shown in the diagram below (*to insert*). Although equality is thread throughout the Plan, the specific areas where equality and inclusion activities are highlighted include:

Programme 2 – Getting Involved, community empowerment (local communities), outdoor learning, engaging equality groups, eg young people

Programme 5 – Developing opportunities for recreation (visitor and access infrastructure, active cairngorms)

Programme 8 – High quality effective planning services (engaging communities in planning process)

Development of equality outcomes

12. Considering CNPA’s role and functions above, it doesn’t have a statutory duty to deliver many services directly. Therefore, for outcomes to be achievable and SMART, they should ideally focus on those services we deliver and have control over, these being planning and access.
13. With regards to CNPA’s delivery programmes, there are key areas which promote equality and lend themselves to the development of equality outcomes, ie communications and engagement, outdoor access and planning.
14. Considering these along with equality issues identified through consultation with staff, equality groups and Inclusive Cairngorms (see Annex 2), the following outcomes have been developed.

Outcome 1 (main outcome)

By removing barriers, more equality groups, including young people, will enjoy, learn about and help to conserve and enhance the Park.

Outcome 2

People of all abilities will be able to access more barrier-free paths in the Park.

Outcome 3

People from equality groups will be aware of and able to access information about the Park, including its recreation opportunities.

Outcome 4

Communities, including young people and people with disabilities, will be able to easily engage with the planning process

Outcome 5

The CNPA will have a more diverse, inclusive and positive working environment for staff.

Action Plan

15. An action plan is included in Annex 2 (column 3), which highlights activities and approaches that will help to deliver the equality outcomes. These are being built into Operational plans within CNPA, linking into existing work as far as possible. In summary the key work areas that will help deliver CNPA's equality outcomes are around:
- removing barriers (for both staff and those engaging with National Parks);
 - inclusive communications and engagement;
 - demonstrating and promoting best practice in equality and inclusion;
 - gathering equality data.

Reporting

16. A Report on progress made to achieve our equality outcomes is required by 30 April 2015 and every two years thereafter. However, the intention is to embed this progress report into CNPA's annual corporate plan report in April each year.
17. A review of our outcomes is required within four years of publishing this set of outcomes, ie by 30 April 2017.

This document is available in large print, and other formats, on request. Please contact Cairngorms National Park Authority, details below. It is also available to view at www.cairngorms.co.uk

Annex I

Process to develop equality outcomes

June 2012 – a workshop with Inclusive Cairngorms was held on 16 June 2012 to identify areas of CNPA's Corporate Plan (2012-15) where equality can be promoted. See comments in **column 1** of Annex 2.

September 2012 – meetings held with Programme Managers to discuss feedback, what is already being covered and opportunities for further promotion of equality in Operational Plan.

October 2012 – analysis and identification of emerging themes for equality outcomes based on feedback, CNPA's role and functions, and NPP outcomes.

November 2012 to March 2013 – further consultation and review with Inclusive Cairngorms and Senior Managers to confirm themes and draft outcomes, actions and indicators.

April 2013 – presenting outcomes to CNPA Staffing and Recruitment Committee for approval.

30 April 2013 – publish equality outcomes on website.

<p>of CNPA ‘customers’ who access the range of our services.</p> <ul style="list-style-type: none"> Lack of equality data on visitors to the National Park <p>(Note: This is overarching outcome; outcomes 2-4 are sub-outcomes of Outcome 1)</p>		<ul style="list-style-type: none"> Planning (see below) <p>1.3 Identify who uses our services so we can make our information and activities accessible to them:</p> <ul style="list-style-type: none"> Work with project coordinators to collate equality data of project participants eg above projects, grants programme, Land management training project, public events, customer survey, etc Explore other approaches to gathering equality data of visitors / visitor surveys 	<p>CNPA CNPA/other agencies</p> <p>CNPA Corporate services and other teams</p>
