

The Highland Tiger

Special Place

The National Park is a stronghold for the Scottish Wildcat due to the type of landscape and the fact that the Park has a richness of the wildcat's favourite food. There are thought to be only around 400 left in the UK making it rarer than the Bengal Tiger

Thriving Economy & Vibrant Communities

With the Scottish Wildcat being so rare, it attracts visitors to the area in the hope that they see one. The wildcat symbol has also been taken to heart by local communities such as Newtonmore.

Enjoy & Get Involved

The project wants people to get involved by reporting sightings and keeping track of images caught on camera traps and uploaded to social networking sites. Volunteer feral cat trappers have also ensured a successful neutering programme.

Cairngorms Farmers Forum

Special Place

Farmers are very important to the Park. The way they manage the land to produce food for our tables is what makes the Park look the way it does - a stunning landscape of grazed and managed moorland and patchwork fields.

Thriving Economy & Vibrant Communities

The creation of the Farmers Forum has allowed farmers and others with an interest in agriculture to get involved with a group of like-minded individuals for the benefit of their own enterprise and in turn the local economy.

Enjoy & Get Involved

Sharing ideas and best practice by getting involved in a group like the Farmers Forum not only benefits farmers but the entire Park from the way our landscape looks to the delicious food on our plates!

Junior Rangers Project

Special Place

Rangers play a key role in looking after, enhancing and telling others about what makes the Park special. Encouraging the next generation of rangers is very important.

Thriving Economy & Vibrant Communities

Ranger services in the National Park contribute to the economy of the Park, encouraging visitors to enjoy the area and the communities where they are based.

Enjoy & Get Involved

The Junior Rangers Project is a fun, adventurous outdoor learning programme and its core aim is to involve young people in caring for the Park.
