Subject: Planning Application 21/01141/PIP - Boat of Garten

I refer to the above planning application submitted by CHT for affordable housing/plots in Boat of Garten.

The original thinking behind this eventual application came from a wide ranging community consultation which identified the need for a greater stock of affordable housing in the locality. That need still stands and is probably, in fact, even greater now.

We note that some concerns have been raised by local residents. We are assuming that CHT will work with these objectors to reach mutually acceptable conclusions.

Boat of Garten Community Council supports this planning application.

Kind regards

Brian Tolson

Chair, Boat of Garten Community Council
