Spatial Priority Area

In May 2011 the communities of Glenlivet and Tomintoul came together to kick-start a regeneration project. The aim of the project was to begin to tackle the issues facing the area. The project produced a Regeneration Strategy and Action Plan and attracted the support and funding. The NPPP 2012-17 supported this regeneration project by identifying Tomintoul and Glenlivet as a Spatial Priority Area.

A great deal of progress has been made over the last few years. The communities in the area have worked closely with the partner organisations to produce a number of successful projects and initiatives. Recognising the investment that has gone into the Tomintoul and Glenlivet area and the fact that investment is programmed to continue over the next few years, it has been decided that a new Spatial Priority area should be identified in the NPPP 2017-22. Evidence suggests that the Dalwhinnie, Kingussie, Laggan and Newtonmore area is most in need of support.
