## Page 2: Local Development in the Cairngorms National Park

**Q1** We propose to use the vision and long term outcomes set out in the Cairngorms National Park Partnership Plan as the 'vision statement' for the Local Development Plan. Do you agree with this approach? **Yes**

---

**Q2** Please explain your answer

We would like to see acknowledgement that conservation is the priority within the Park and provides the foundation for sustainable development.

---

**Q3** Do you agree with our conclusions about the changes that need to be made to policies in the existing Local Development Plan? **Respondent skipped this question**

---

**Q4** Do you think any other changes are needed? **Respondent skipped this question**

Page 6: Main Policy Issue 1: Over-arching development strategy

**Q11** Do you agree that the overall development strategy of the current Local Development Plan remains appropriate, and that we should use this as the basis for the next Local Development Plan? **No**

**Q12** Please explain your answer here:

The CNPA has helpfully set out data on future housing demand and population trends. There is no compelling case to allocate areas of high nature and landscape value to new housing developments - and as such the CNPA are encouraged to revisit their existing allocation to planned developments, including An Camus Mor.

**Q13** What would you like to do next?

**I have finished with the consultation**

**Q15** Do you agree that we should include a clearer policy in the new Local Development Plan to set out when tools such as master plans and development briefs will be used? **Respondent skipped this question**

### Page 12: Main Policy Issue 7: Impacts on Natura designations

**Q36** Do you agree that the new Local Development Plan should include a more co-ordinated approach towards delivering wider packages of capercaillie mitigation and conservation measures? **Yes**

---

**Q37** Please explain your answer here:

It is imperative that the primary mitigation measure is maintenance of existing habitat - and presumption against development. Habitat enhancement away from settlements is a sensible and necessary supplementary measure.

Page 14: Main Policy Issue 9: Flood risk and climate change resilience

**Q43** Do you agree that the new Local Development Plan should include a stronger policy requirement for Sustainable Drainage Schemes (SUDS) to be considered in all new development proposals? **Yes**

---

**Q44** Please explain your answer here:

This is a welcome strengthening of existing guidance to bring it within policy. Other nature based solutions such as woodland planting, cessation of large scale burning in the uplands and recreation of natural flood plains should be encouraged by other mechanisms within the Park.

---

**Q45** What would you like to do next?

**Answer questions on another main policy issue**

---

Page 15: Main Policy Issue 10: Land management in upland areas

**Q46** Do you agree that the new Local Development Plan should include an amended policy to reflect the National Park Partnership Plan's presumption against new hill tracks in open moorland areas? **Yes**

---

**Q47** Please explain your answer here:

Creation of tracks may be necessary in exceptional circumstances, even on a temporary basis, for some land management objectives such as establishment of new woodland. These situations will likely be the exception - and whilst the policy can have a clear assumption against establishing new tracks there should be scope to consider developments if they are the only practical means of delivering the long term objectives within the Park.
