Page 2: Local Development in the Cairngorms National Park

Q1 We propose to use the vision and long term outcomes set out in the Cairngorms National Park Partnership Plan as the 'vision statement' for the Local Development Plan. Do you agree with this approach? **No**

Q2 Please explain your answer

I don't think that the Cairngorms National Park should be prioritising conservation or visitor experience or anything else before it takes care of the needs and requirements of the people who actually live and work in the area.

Q3 Do you agree with our conclusions about the changes that need to be made to policies in the existing Local Development Plan? **No**

Q4 Do you think any other changes are needed? **Yes**

Q5 Please explain your answer

The National Park have no business getting involved in planning. It is not their job. They do not have the qualifications or experience or knowledge to be involved at the level they are.

The changes required here are for National Park to have no input to planning other than at a very low level where the views they express are just that, views, and cannot affect outcomes made by proper and authorised, qualified planners who do planning as a full time job/career.

Page 3: Main Policy Issues and Settlements

Q6 Which section would you like to give your views on first? **Settlement-based Issues**

Page 4: Main policy issues for the new Local Development Plan

Q7 Please select a main policy issue: **Respondent skipped this question**

Q111 Do you agree with the preferred site options? No

Q112 Do you agree with the protected open spaces? No

Q113 Do you agree with the proposed settlement boundary? **No**

Q114 Explain your answers here:

There has been no logical thought to where new housing might be suitably placed in Carrbridge. It would appear to me that the places marked for development have been chosen purely based on land offered for sale rather than if it is suitable or not. Quite clearly the site H1 marked for 72 houses is laughable. Any one looking at a small village with four routes entering it is not going to choose the smallest road with the worst access to build more houses. The most obvious and sensible way to add more properties is to add to the edges where MAIN two way traffic roads enter and leave the village such as Inverness Road, Granttown Road or the Kinveachy Road. Three options all of which have space on one or both sides of the road for developments of varying sizes.

For example take a look at the Dalmore and Dalbeag developments in Carrbridge. Both have been built without disruption to the village and without risk of life to villagers. You hardly know they are there which is exactly how it ought to be. The one problem with them is that there isn't enough of the smaller size houses for people with low income or starting out, first time buyer (not holidaymaker) type properties. Some nice one or two bed flats for young people would be good. It is sad to see young people leaving the village because they can't afford to stay.

The Struan Hotel could be an excellent project for a combination of small bedsits and flats suitable for young people, students, low paid workers to rent while doing seasonal work.

Any development in the village of more than two houses should have conditions attached whereby they are required to put something back into the community. The community should have a list of projects and requirements that can be voted for on a case by case basis. There is far too much heed paid to what developers want out of the developments and nothing to benefit the local people and community. It is time that this was stopped and that local communities were afforded some benefits from the developers who, lets face it, gain more than anyone.

A much better pathway infrastructure linking Carrbridge to the other neighbouring communities would be of great benefit to both locals and tourists and would be advantageous to local businesses at the same time. Public transport - bus and train - to and from Carrbridge is dreadful so a non motorised vehicle pathway would at least mean that walkers and bikers could travel to and from the village with ease. Currently there is no safe way to do this.

There is a need to provide some overnight pitches for campervans, not necessarily in Carrbridge, but in the area in general. Something that allows a max of 2 nights but that has facilities for disposal of sewage and facilities for topping up fresh water. Power would also be advantageous. Currently there does not appear to be anywhere locally for disposal of sewage for these campervans which means they are emptying in public toilets and quite likely burns and rivers. If you don't provide somewhere and they need to empty then they will.

One of the nice things about living in Carrbridge which is a very nice community is that we are surrounded by woodland with nice paths and walks. We like this and want to keep it that way so any development should stay away from the woodland as there is plenty land available on the surrounding edges of the village to use without taking established woodland away.

Page 44: Final Thoughts

Q208 If you have any other general comments on the topics you think the Local Development Plan 2020 should address, please let us know here:

This survey and the way in which the questions were posed is offputting and I expect that may have been deliberate to prevent more people contributing.

Many of the questions were ambiguous and hard to understand and it was not always easy to choose the appropriate response. It felt more like a school exam paper..... "explain your answer here"?! Really? You must do better in future surveys.
