Page 2: Local Development in the Cairngorms National Park

Q1 We propose to use the vision and long term outcomes set out in the Cairngorms National Park Partnership Plan as the 'vision statement' for the Local Development Plan. Do you agree with this approach? **No**

Q2 Please explain your answer

The key issue is that the natural and cultural heritage should be both safeguarded and enhanced. That then forms the base upon which the two other outcomes becomes possible.

Q3 Do you agree with our conclusions about the changes that need to be made to policies in the existing Local Development Plan? **Respondent skipped this question**

Q4 Do you think any other changes are needed? **Respondent skipped this question**

Q5 Please explain your answer

Policy 1: I support the need to reduce the housing land supply in line with the NRS 2014 report.
Policy 4: I strongly support increased protection for ancient woodlands and protected species.
I support increased clarity concerning species/habitats to be protected.
Policy 5: I support reference to protection for wild land, suitably defined.
Policy 7: Decommissioning should include all aspects of access tracks/storage areas etc.
Policy 8: I support reference to allotments. These are valuable not only for producing healthy food but also for social interaction and reducing isolation, particularly important in a ageing population.
Policy 10: I support increased attention and consideration of natural flood management, particularly with reference to land management.

Page 6: Main Policy Issue 1: Over-arching development strategy

Q11 Do you agree that the overall development strategy of the current Local Development Plan remains appropriate, and that we should use this as the basis for the next Local Development Plan? **Respondent skipped this question**

Q12 Please explain your answer here:

I strongly support concentrating development within existing strategic, intermediate and rural settlements, and having a strong presumption against developments elsewhere BUT it is not the case that this policy has been sufficiently adhered to in the past. There are multiple examples of single houses being given planning permission in sensitive locations, for example close to woods important for capercaillie (eg. 14/00342 Garlyne, Nethy Bridge and 2015/0290/DET Livery Stables, Nethy Bridge), and frequently these are not even called in by the CNP. The policy of having a "more restrictive approach to development" outside settlements is contradicted by not calling in single house applications in the countryside. Clearly, this policy needs to be considerably strengthened, AND it is necessary for the CNPA to call in all such applications and determine them appropriately. At present the presumption against single houses in the countryside appears to exist on paper only and is not being enforced, to the considerable damage to the landscape and wildlife of the CNP.

Likewise, the policy concerning "small-scale developments which add to existing groups" is allowing proposals for increases of one third in any one application - which can then be followed by another application a few years later, adding another one third of the new number, giving in practice very little protection from over development. For example, a proposal concerning a group of six houses could be given permission for two more houses one year, and then a year or so later another three houses and then four houses a little later, resulting in the six houses becoming fifteen in less than a decade: that is not an acceptable rate of change and your policies should change so as to prevent such abuses.
