Subject: Frank Spaven Drive green space

Sensitivity: Normal

Dear Gavin Miles,

I am concerned to hear the green space area at Frank Spaven Drive status is to be changed to build able land , this is the only place in Aviemore where all the children in the village can play without complaints or having to pre book , its used by all the village children not just those who live here as well as visiting families to the area , other groups use it also for outdoor exercise classes , football , shinty and games of rounders , I feel this would be a great loss to the village as a whole and hope you will consider keeping this as a protected green space.

I understand there is a shortage of build able land but I also feel strongly that we must protect our green space for ours and future children they need to have access to green areas so they can build friendships through play and exercise

Regards

Michelle Arbuthnott
