---

Dear Gavin,

I am writing on behalf of myself and my family...and I daresay many other families in the area who are equally appalled to hear of the plans to change the sports field in our area from green space to potential building plots. We live at [REDACTED] and fell very strongly that this area should remain a place where children can play and enjoy some outdoor space close to our homes.

I sincerely hope this will not go ahead as it would be an unforgivable blow to our local community!

Kind Regards,

Gillian Welsh
