Subject: Extension of new site for community use Aviemore Frank Spaven Drive

Sensitivity: Normal

Frank Spaven Drive

Dear Sir

I would like to take an opportunity to make my objections clear on the above site, this site is currently in use as a greenbelt area of Land for dog exercise, kids recreation and football, Aviemore community enterprise have never undertook clear and concise engagement with the local residents effected by any potential future development. Who are this community enterprise company that have identified this site for yet another hall in Aviemore? Who are they elected by? This land must be retained in my eyes and can not be put into the local plan and must stay as it is. Should the park decide to adopt this ludicrous suggestion it will be met with serious resistance.

Yours

Joe Kirby (community Councillor)
