Subject: Local development plan Lochan Mhor field

Sensitivity: Normal

As a homeowner on the estate I'm deeply concerned about the proposal contained within the local development plan for the grass area alongside Frank Spaven drive. I wholeheartedly oppose any sort of development on this area. In an age where we encourage our young to go out and play this area offers one of the few actual grassed areas within the village. Since the field has become the unofficial football ground of the locals I've seen both adults young and old playing on this. Any sort of development would bring an increase in traffic, noise and pollution within this heavily built up area and this makes no sense at all. This area needs to be retained as it is a grass space and should be earmarked by the national park to remain as this. Myself and numerous homeowners are against this.

Yours

Mr J Furie
