**Sensitivity:** Normal

---

Dear sirs,

Your proposal has only recently come to my attention and I wish to register my objection.

- This land is an important recreation area for local residents;
- There is so little else available for children to play games and run around in safety;
- Local residents have contributed, in their property purchase, to the provision of this area, it cannot just be spirited away;
- We also pay for the upkeep and maintenance, and have contributed towards goal posts.

Please do not allow development of this land for any other purpose.

**John Goldsworthy**
