Newtonmore. ED2 Industrial Park. Allocated for industrial development.

Q162 What is your comment on this section of the Plan? (Your comment should not exceed 2,000 words)

I currently farm the area of the site that is not currently developed, and it has been farmed by my ancestors since 1859. The first thing is that there is currently no suitable access to the undeveloped part of the site. If it was to be developed, neither Golf Course Road nor Craigmhor Road are suitable for HGVs, being narrow and with tight awkward turns. The only feasible way for access would arguably through the existing access road to the industrial area, but there is currently no route through the existing site.

Second, although I note any development would require a Drainage Impact Assessment, it is low-lying and is prone to being waterlogged every winter. I keep farm machinery off it during those periods. There is an open drain running across the undeveloped site which carries water from two pipes that empty into it. One collects surface water from the industrial estate while the other collects surface water from the housing area. The water continues in an open drain by the side of the railway line until it reaches a pipe under the railway line where it passes through to Newtonmore Golf Course side and continues to the River Spey. The Golf Club have not been clearing the drain on their side to let the water through and, consequently, the water backs up over the field. Although Highland Council Flood Risk Management have contacted the Golf Club about this, the Golf Club have not so far undertaken any remedial measures and, as far as I know, have no plans to do so.

Third, the sewage which is piped from the industrial estate across the field has had its problems, again because of the low-lying nature of the land. The sewage is pumped but, because of a blocked pipe recently, the sewage ended up flowing over the fields in the days until Scottish Water were able to remedy this. Clearly, this may well continue to present a problem and I now have to check this daily.

Proposed Local Development Plan 2019

Q163 Please state clearly what change/s you wish to see made to the Plan to address your comment.(Your comment should not exceed 2,000 words)

Given these facts, I do not believe the proposed extended site is suitable for further development and should be restricted to the current industrial estate site.
