13th March 2019

Dear Cairngorm National Park,

Recently I recieved a letter with Proposed development for Aviemore Highland Resort. I am very concerned with the flooding over the years in this area. The snow melt and heavy rain in the last couple of days the stream has risen to 5ft.

There is a marsh area in this field which has Springs, My worry if this area was to be back filled the water has to go somewhere. and is likely to flood the existing howes.
