Vision & Spatial Strategy

Q6 What is your comment on this section of the Plan? (Your comment should not exceed 2,000 words)

Vision: Tactran supports the broad principals outlined with the Vision section of the plan, in particular Tactran supports the statement that "making sure new development is well connected to core paths and other off-road routes" as this will encourage the uptake of active travel modes.

Spatial Strategy: Tactran agrees that the improvements to strategic transport infrastructure such as the A9 dualling and Highland Main Line upgrades will be a benefit to many of the communities with the CNP, however it is important to note that travel by private car should not be prioritised over other more sustainable transport modes. Tactran also supports the principal that development is focused on the main settlements as dispersed development in rural areas can be problematic from a transport perspective with access to essential services difficult to provide.

Proposed Local Development Plan 2019

Q7 Please state clearly what change/s you wish to see made to the Plan to address your comment.(Your comment should not exceed 2,000 words)

It would perhaps be better if this section also confirmed that new developments will be accessible by public transport and where this is not possible other alternatives to private car use are included within any development proposal.

It is important to note that travel by private car should not be prioritised over other more sustainable transport modes.
