Introduction and Vision

Q6 What is your comment on this section of the Plan? (Your comment should not exceed 2,000 words)

We welcome that the content of the Local Development Plan is guided by the Cairngorms National Park Partnership Plan. We broadly support the National Park Partnership Plan

- National Parks are of huge importance for outdoor access and recreation
 - They offer a show case, best practice and testing ground and are seen as exemplars
 - The partnership plan should be seen in the wider policy context – National Walking Strategy (actions identified), Cycling Action Plan for Scotland and the Long-term Vision for Active Travel in Scotland
 - The plan should highlight the importance of the health agenda, behaviour change and preventative spend
-

Q7 Please state clearly what change/s you wish to see made to the Plan to address your comment.(Your comment should not exceed 2,000 words)

We particularly welcome the intention in this plan that:

- the special qualities of the Park are enhanced by new development where possible and protected from development that would significantly erode or harm them;
- new development is well connected to core paths and other off-road routes, as well as creating attractive places to live and visit

We agree that most new development would continue to be focused on the main 'strategic' settlements. This should facilitate more active travel options and public transport choices.

A9 /main line rail

We agree that these developments should be used as an opportunity to develop better active travel and joined up public transport options within the park and beyond.

We agree that a parallel route for non-motorised users, particularly cyclists and walkers, will make a significant contribution to functional transport on a safe off-road route between many of the communities in the National Park.

We are concerned that efforts should be made to avoid severance of access routes.

Q8 Would you like to comment on another section of the Plan? **Yes**

Page 6: Policy 1: Housing

Q9 Please state clearly which policy, settlement, site reference number, paragraph number etc. your comment relates to.

Housing

Q10 What is your comment on this section of the Plan? (Your comment should not exceed 2,000 words)

New housing development must take into account the need for sustainable travel.

We are not in a position to comment on housing supply but new housing developments must take on board the latest guidance on sustainability and particularly active travel and public transport

Q11 Please state clearly what change/s you wish to see made to the Plan to address your comment.(Your comment should not exceed 2,000 words)

n/a

Q12 Would you like to comment on another section of the Plan? **Yes**

Q13 Please state clearly which policy, settlement, site reference number, paragraph number etc. your comment relates to.

Economy

Q14 What is your comment on this section of the Plan? (Your comment should not exceed 2,000 words)

There is strong evidence of the social return from investing in recreation. There is the value of the tourist / visitor expenditure, but also the socioeconomic value for residents and visitors that better health, inclusion and environment can bring.

The plan should promote getting workplaces active within the park and the role of employers and the park authority in leading the way.

We welcome 4.40 Proposals to create, expand or enhance informal visitor infrastructure such as paths and strategic routes will be supported where they contribute to encouraging active travel and have no adverse environmental impacts.

Q15 Please state clearly what change/s you wish to see made to the Plan to address your comment.(Your comment should not exceed 2,000 words)

Q17 Please state clearly which policy, settlement, site reference number, paragraph number etc. your comment relates to.

Design

Q18 What is your comment on this section of the Plan? (Your comment should not exceed 2,000 words)

We agree - all developments must meet the six qualities of successful places, which in accordance with Scottish Planning Policy paragraphs 41 to 46, are to be: i. distinctive; ii. safe and pleasant; iii. welcoming; iv. adaptable; v. resource efficient; and vi. easy to move around and beyond.

Agree Good design and placemaking is key to achieving development fit for a National Park.

We welcome 3.3

f) promote sustainable transport methods and active travel, including making provision for the storage of bicycles and reducing the need to travel;

g) improve or add to existing public and amenity open space;

h) maintain and maximise all opportunities for responsible outdoor access, including links into the existing path network and ensuring consistency with the National Park Core Paths Plan;

We welcome 4.58

In considering the impact on the path network, proposals must be consistent with the Scottish Outdoor Access Code, the Cairngorms National Park Outdoor Access Strategy and the Cairngorms National Park Core Paths Plan.

And 4.59 New development proposals should follow the principles of Designing Streets, the Scottish Government's policy statement on street design, to ensure the creation of places that are easy to move around and beyond. They should also provide safe and convenient opportunities for walking and cycling for both active travel and recreation. These factors should be considered at the outset of the design process in order to ensure they are fully incorporated into new development proposals.

Q25 Please state clearly which policy, settlement, site reference number, paragraph number etc. your comment relates to.

Landscape

Q26 What is your comment on this section of the Plan? (Your comment should not exceed 2,000 words)

We welcome clarification on the issue of hill tracks to reflect the National Park Partnership Plan's presumption against new tracks in areas of open moorland

We welcome 5.2 Private Roads and Ways

New private roads and ways in open moorland* areas will not be permitted unless they:

- a) are designed to minimise landscape and environmental impacts; and
 - b) form part of a programme of works including the removal of other existing private roads and ways to deliver a net benefit for the special landscape qualities of the National Park
