Subject: LDP 2020 consultation response
Sensitivity: Normal

I am broadly supportive of the proposed LDP EXCEPT- H1

I am not against houses on H1 but against 36 houses on half the field . This is far too many on half the field and of course means more houses on the other half in the future .

I would prefer to see the whole field developed at the same time with 36 as a maximum. If it is has to be half the field, then 18.

Carr road is narrow and is presently dangerous used by pedestrians of all age groups with a lot of vehicular traffic of all sorts.

I would want to see 20mph at least , appropriate traffic calming measures and a path away from Carr road to the school .
