Subject: RE: Planning Applications Approved - Housing

Hi Mark

Good to chat yesterday. We have published data on planning applications going back to 2010, which sets them out by approval / refusal and whether or not it was the CNPA or LA who determined them. The monitoring is done on a policy basis, so anything residential would have been determined under Policy I (2015-2020) for the current Plan and Policies 20 to 23 for the Local Plan (2010-2015).

Info on the current Plan is contained within the Monitoring Statement for the MIR / Proposed Plan. See Section 2.

<https://cairngorms.co.uk/wp-content/uploads/2019/01/Monitoring-Statement-opt.pdf>

Info on the Local Plan (2010) is found within the final Monitoring Report for that Plan, which was taken to committee in January 2016. I have attached this report to the email.

Let me know if you have any questions.

All the best

Dan

Hi Mark

Simple answer is no we don't, but we do have quite a lot of other figures that might be useful in our evidence and monitoring reports.

I gather you picked it up with Dan last night and he's going to send on some links. Just ask if you want more than that and we'll see what we've got or can get.

Gavin

Subject: Planning Applications Approved - Housing

Hi Gavin,

Do you have a figure for the number of planning applications approved for housing between 2000 and 2017, within the National Park please? (including LA and called in approvals).

Many thanks

Regards,

Mark
