	<p>“The policy aims to ensure the needs of local communities and visitors for recreational space and facilities are accommodated, and existing facilities protected. This includes informal and formal recreation provision and the delivery of strategic infrastructure, such as the Speyside Way extension. The policy encourages the development of good quality open spaces and recognises the environmental, social and health benefits they can generate through green infrastructure, biodiversity and placemaking.”</p> <p>3. <u>Modify the wording of Paragraph 5.17 relating to Community Information: Environmental Considerations</u> on Page 85 to read:</p> <p>“The site allocations in this section of the Plan identify where development may have an effect on a European site and specify the mitigation measures from Table 4 that will be required to ensure there is no adverse effect on the integrity of the European site. Please note that not all the mitigation measures in Table 4 will apply to all developments; only those that are specified in the site allocation details will be required for the purposes of Habitats Regulations Appraisal. (This does not however override the requirements of Policy 10, which apply to all development.)”</p> <p>4. <u>Modify Table 4: Mitigation requirements for developments that may affect Natura sites</u> on Page 86 so that the second paragraph in the third row, second column reads:</p> <p>“Discharges and/or increases....through changes in temperature, water levels and/or flow rates.”</p> <p>5. <u>Modify Table 4: Mitigation requirements for developments that may affect Natura sites</u> on Page 86 so that the second paragraph in the third row, third column reads:</p> <p>“All waste water from developments must comply with Policy 10.3, as well as demonstrate that there will not be an adverse effect on the integrity of river SACs through nutrient enrichment. Please note that this requirement may be more stringent than would otherwise be required by the policy alone.”</p>
